

Mini Universal-connector

The small innovation

Our new terminal connectors are universally applicable for fine-wire, single-wire and multi-wire copper conductors with a diameter of 0.2 to 2.5 mm².

Because of the smaller body, this connector is your first choice for connecting cables in small spaces.

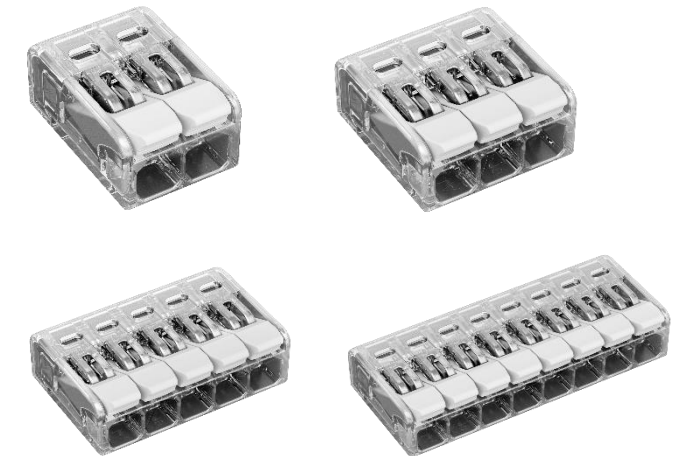

The transparent design and the practical test slot allow the correct position of the conductor to be checked easily and quickly.

After stripping the cable, a solid cable can be pushed into the connector without operating the lever.

Brand new

Next to the known sizes, the Mini universal connector is also available in an 8-poles edition.

Type	Article description	VPE (Pcs.)	VPE 2 (Boxes)	Article number
EM129 2	Mini universal-connector 2-poles	100	16	905195
EM129 3	Mini universal-connector 3-poles	100	16	905196
EM129 5	Mini universal-connector 5-poles	50	20	905197
EM129 8	Mini universal-connector 8-poles	25	20	905198

Specifications

Housing	Polycarbonate(94-V2)
Rated insulation voltage	450V
Rated current	24A
Ambient temperature	Max. 85 °C
Tests	CE, VDE, ENEC10
Color of the lever	White
Color of the housing	Transparent
Stripping length	11 mm
Recommended reusability	2 times
Flame retardant according to UL94V-2	
Different diameters per connector	
Test slot on the back
