

BOXX Junction boxes

The worker's choice

BOXX Junction boxes

Strong and versatile: Junction boxes for every challenge

Our new junction box range is here: High-quality, easy to install and reliable. The existing range of junction boxes from the K-series with IP55 protection class is getting some support from the BOXX junction boxes.

Due to the high IP and IK protection classes, the BOXX cable junction boxes are much more robust and can be installed not only indoors but in protected outdoor environments as well. Different sizes and shapes provide flexible wiring space possibilities. In addition, numerous other features characterise the new portfolio in Don Quichotte quality as you are used to.

**Easy cable entry due to plug-in seals
- Removable for the use of cable glands**

1

Possibility to seal

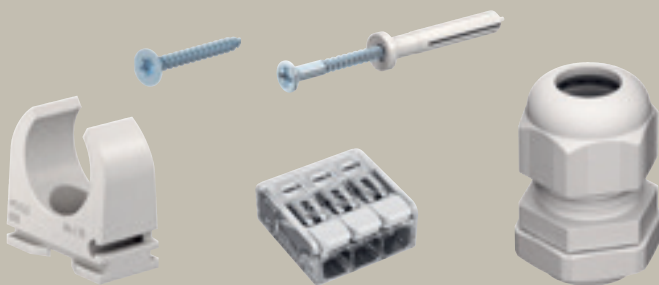

7

All from one source: Installation material from the specialist

Specialised in electrical fixings, Don Quichotte naturally supplies all the installation products that are needed for installation of these junction boxes, such as reliable fastening of the pipes and secure connection of the cables. It is not without a reason that we are The worker's choice

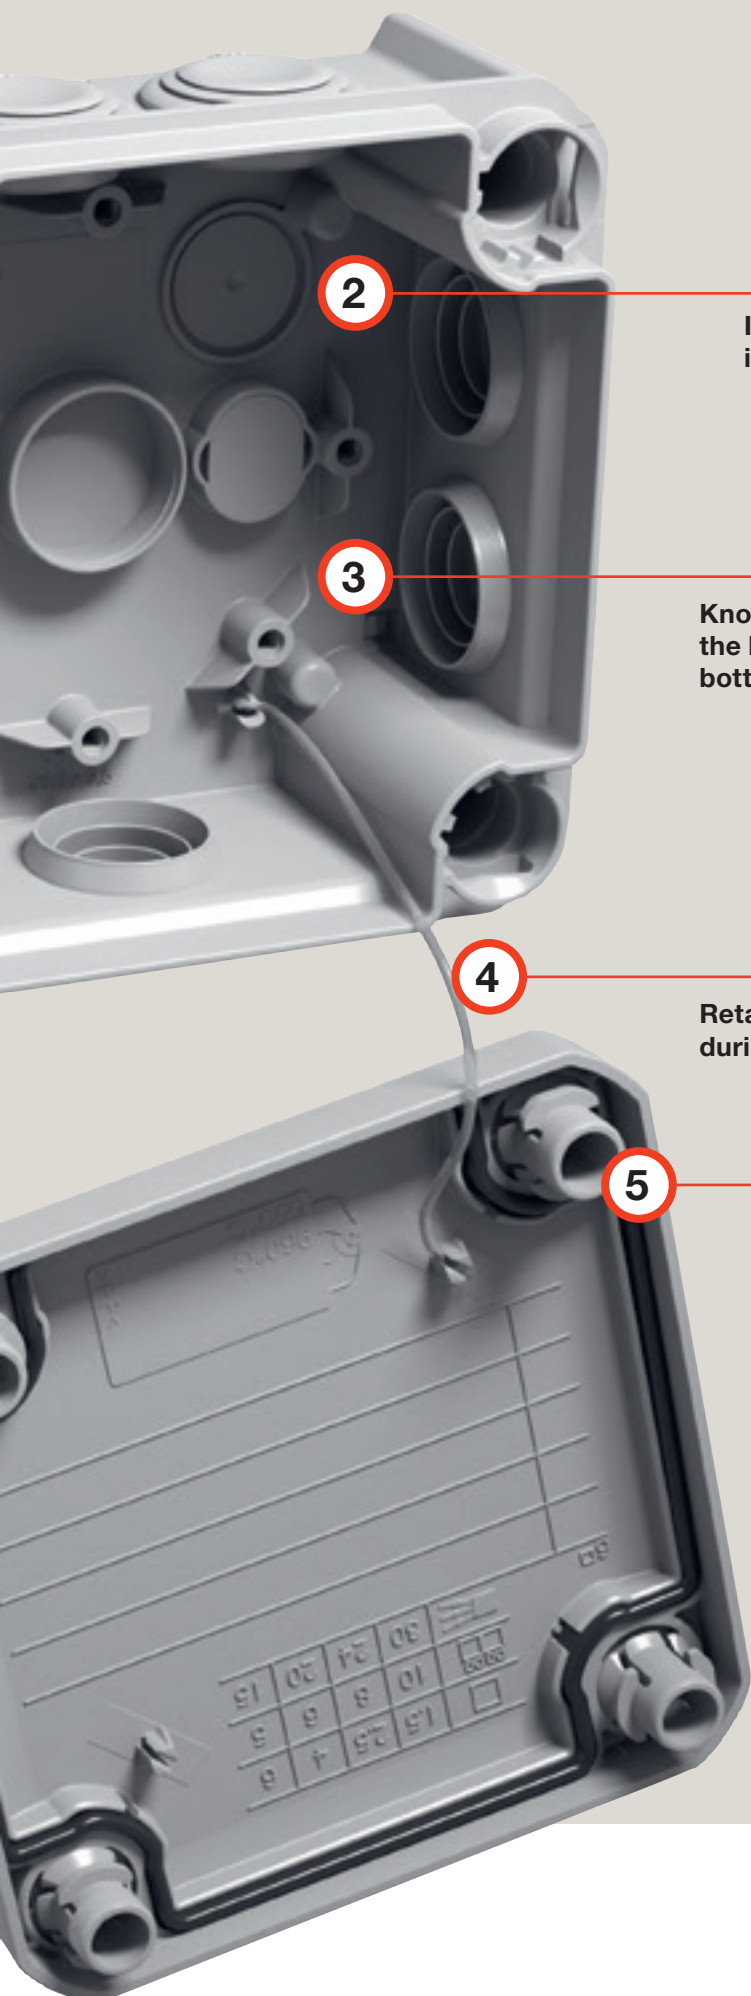

A quick overview of our portfolio for the reliable installation of junction boxes

- Connectors
- Cable glands
- Pipe and cable clips
- Fasteners

Peripheral seal (from size H6)

6

2

Interior mounting points for installing optional terminal strips

3

Knock-out holes in the base for insertion from the back & screw caps for fixing through the bottom

4

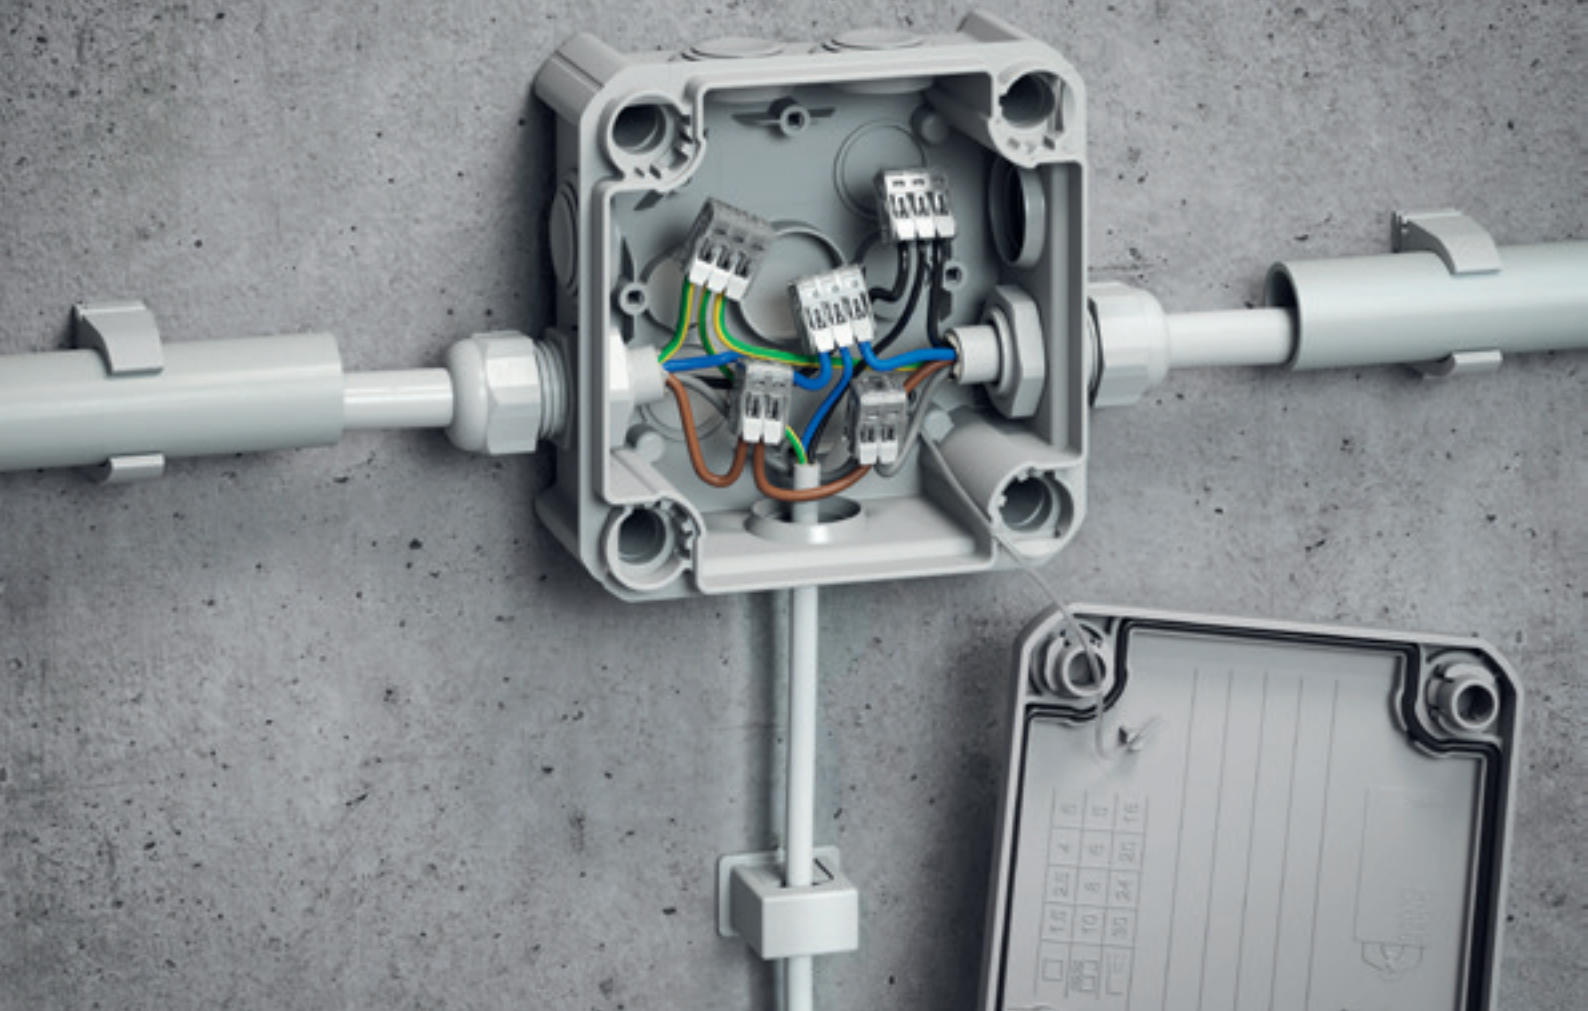

Retaining strap secures lid from falling down during installation

5

¼-turn locks for simple and quick closure of the lid (from size H6)
